

AGI/NAGT LABORATORY MINERAL SET
45 H 4082

- | | |
|----------------------------------|------------------------------------|
| 1. Microcline (K-feldspar) | Madawaska, Ontario, Canada |
| 2. Milky Quartz | Dekalb, New York, USA |
| 3. Biotite | Bancroft, Ontario, Canada |
| 4. Muscovite | Madras, India |
| 5. Albite (plagioclase feldspar) | Bancroft, Ontario, Canada |
| 6. Hornblende (amphibole) | Wilberforce, Ontario, Canada |
| 7. Augite (pyroxene) | Harcourt Township, Ontario, Canada |
| 8. Olivine (forsterite) | San Carlos, Arizona, USA |
| 9. Kaolinite | Twiggs County, Georgia, USA |
| 10. Calcite | Hidalgo, New Mexico, USA |
| 11. Dolomite | Butte, Montana, USA |
| 12. Bauxite | Bauxite, Arkansas, USA |
| 13. Talc | Balmat, New York, USA |
| 14. Garnet (almandine) | Madras, India |
| 15. Halite | Windsor, Ontario, Canada |
| 16. Gypsum (selenite) | Washington County, Utah, USA |
| 17. Chalcopyrite | Durango, Mexico |
| 18. Galena | Brushy Creek, Missouri, USA |
| 19. Limonite | Alexandria Bay, New York, USA |
| 20. Fluorite | Rodeo, Durango, Mexico |
| 21. Graphite | Colombo, Sri Lanka |
| 22. Hematite | Hoyt Lake, Minnesota, USA |
| 23. Magnetite (lodestone) | Iron County, Utah, USA |
| 24. Sphalerite | Balmat, New York, USA |
