

BSE / TSE STATEMENT

VWR* BIOHAZARD BAGS

North American Catalog No:	14220-088
Description:	VWR BAG BIO R 3M 38X48" CS50

This document certifies that some films & resins and masterbatch additive packages may contain byproducts of bovine sourced raw materials in their manufacture. These animal byproduct additives are processed under highly refined and controlled industrial chemical processes and at very high temperatures prior to purification and subsequent use as a polymer additive.

This applies to all products comprised of either polypropylene or low density polyethylene polymers. The animal derived byproducts are not added in the process, but originate either in the manufacture of the resins or in the additives used in film formulations as used by the Manufacturer.
