## SAFETY EQUIPMENT AND PROTECTIVE GEAR - ZERO WASTE BOX™

TerraCycle's Recycling Boxes make it easy for businesses to recycle hard-to-recycle items, like safety equipment and protective gear. Each recycling box is affixed with a pre-paid shipping label, making it easy to send your safety equipment and protective gear back to TerraCycle for recycling.

All brands safety equipment and protective gear are accepted, including: ear plugs, beard nets, hair nets, gloves and safety glasses made with rubber, nylon and other types of materials. Once full, securely seal the top of the recycling box with packing tape and place in your designated shipping area. When TerraCycle receives your box, the plastic is ground, melted, and pelletized through extrusion in order to create recycled resin. The resin is then combined with other recycled plastics to make eco-friendly products.

Please only include: ear plugs, beard nets, hair nets, gloves and safety glasses. Eye glasses, sunglasses, pipet tip boxes, gloves, disposable garments, vials and beakers are not acceptable.

DESCRIPTION	CAT. NO.
Small Safety Equipment Box - Dimensions: 11" x 11" x 20"	75996-444
