

Establish and Maintain a Healthy POC Ecosystem™

with Siemens Healthineers POC Informatics

Facilitate real-time result collection, avoid clerical errors, and maximize efficiency with Siemens Healthineers POC Informatics.

Siemens Healthineers delivers a testing solution that offers full oversight of all analyzers, regardless of department or location, and provides a clear history of the results generated.

Dozens of
sites

Hundreds of
devices

Thousands of
operators

True open connectivity by
POC informatics

Improve processes with centralized management of your blood-gas testing through a single, customizable interface.

- Implement a robust, scalable connectivity solution to network and monitor your testing devices.
- Ensure your devices are online, operational, and properly maintained with immediate oversight and control.
- Maximize efficiency, improve clinical workflows, retain a data audit trail, and reduce costs.

Implement solutions that support standardized results and compliance.

- Aligns with Part 11 FDA guidance and supports data integrity at every stage of your research.
- Helps you to manage consumables more efficiently with material usage and device workload reports.
- Provides result review, data management, inventory management, and reporting of activities for your POC devices.
